It is now time to transfer the above EX approved products to the life cycle phase Limited. EX products have been in our portfolio for almost 10 years. We have decided to reduce the portfolio by phasing out products where we have alternative products available with similar functionality.

The transfer takes place in two steps. At the date of this document, the above products are transferred to the phase Mature. The transfer to Limited takes place at the last order date. As alternative products are available, the time from Active to Mature is shorter than normal.

For a description of the Westermo Life Cycle Policy and the different phases, please see:
<https://www.westermo.com/support/product-life-cycle>

For any questions, feel free to contact Westermo Product Office
